SUPPLEMENTAL DATA AND RATIOS:				
Net assets, end of period (in thousands)	\$96,516	\$82,657	\$63,047	\$52,727
Ratio of expenses to average net assets ^{(f)(g)}	0.85%	0.85%	0.85%	0.85%
Ratio of net investment income to average net assets ^{(f)(g)}	1.15%	1.44%	1.18%	0.32%
Portfolio turnover rate ^{(e)(h)}	20%	36%	70%	51%

^(a) Inception date of the Fund was June 30, 2021.

^(b) Net investment income per share has been calculated based on average shares outstanding during the year.

^(c) Recognition of net investment income by the Fund is affected by the timing of the declaration of dividends by the underlying exchange traded funds in which the Fund invests. The ratio does not include net investment income of the exchange traded funds in which the Fund invests.

^(d) Realized and unrealized gains and losses per share in the caption are balancing amounts necessary to reconcile the change in net asset value per share for the years, and may not reconcile with the aggregate gains and losses in the Statement of Operations due to share transactions for the year.

^(e) Not annualized for periods less than one year.

^(f) Annualized for periods less than one year.

^(g) These ratios exclude the impact of expenses of the underlying exchange traded funds as represented in the Schedule of Investments. Recognition of net investment income by the Fund is affected by the timing of the underlying exchange traded funds in which the Fund invests.

^(h) Portfolio turnover rate excludes in-kind transactions.

The accompanying notes are an integral part of these financial statements.

1. ORGANIZATION

Alexis Practical Tactical ETF (the “Fund”) is a diversified series of Listed Funds Trust (the “Trust”), formerly Active Weighting Funds ETF Trust. The Trust was organized as a Delaware statutory trust on August 26, 2016, under a Declaration of Trust amended on December 21, 2018 and is registered with the U.S. Securities and Exchange Commission (the “SEC”) as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund is an actively-managed exchange-traded fund (“ETF”) that seeks total return primarily through long-term capital appreciation, with income and capital preservation as secondary objectives.

2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, *Financial Services — Investment Companies*. The Fund prepares its financial statements in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and follows the significant accounting policies described below.

Use of Estimates – The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

Share Transactions – The net asset value (“NAV”) per share of the Fund will be equal to the Fund’s total assets minus the Fund’s total liabilities divided by the total number of shares outstanding. The NAV that is published will be rounded to the nearest cent. The NAV is determined as of the close of trading (generally, 4:00 p.m. Eastern Time) on each day the New York Stock Exchange (“NYSE”) is open for trading.

Fair Value Measurement – In calculating the NAV, the Fund’s exchange-traded equity securities will be valued at fair value, which will generally be determined using the last reported official closing or last trading price on the exchange or market on which the security is primarily traded at the time of valuation. Such valuations are typically categorized as Level 1 in the fair value hierarchy described below.

Securities listed on the NASDAQ Stock Market, Inc. are generally valued at the NASDAQ official closing price.

The valuation of the Fund’s investments is performed in accordance with the principles found in Rule 2a-5 of the 1940 Act. The Board of Trustees of the Trust (the “Board” or the “Trustees”) has designated the Adviser as the valuation designee of the Fund. The circumstances in which a security may be fair valued include, among others: the occurrence of events that are significant to a particular issuer, such as mergers, restructurings or defaults; the occurrence of events that are significant to an entire market, such as natural disasters in a particular region or government actions; trading restrictions on securities; thinly traded securities; and market events such as trading halts and early market closings. Due to the inherent uncertainty of valuations, fair values may differ significantly from the values that would have been used had an active market existed. Fair valuation could result in a different NAV than a NAV determined by using market quotations. Such valuations are typically categorized as Level 2 or Level 3 in the fair value hierarchy described below.

Money market funds and MMDA are valued at NAV. If NAV is not readily available the securities will be valued at fair value.

T-bills are valued at the last reported sale price on the exchange on which the security is principally traded. Pricing services may use various valuation methodologies such as the mean between the bid and asked prices. Such valuations are typically categorized as Level 2 in the fair value hierarchy described below.

An amortized cost method of valuation may be used with respect to debt obligations with sixty days or less remaining to maturity, unless the Adviser determines in good faith that such method does not represent fair value.

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (“ASC 820”) defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP, and requires disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and

ALEXIS PRACTICAL TACTICAL ETF
NOTES TO FINANCIAL STATEMENTS
November 30, 2024 (Unaudited) (Continued)

level of activity for an asset or liability, when a transaction is not orderly, and how that information must be incorporated into fair value measurements. Under ASC 820, various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the following hierarchy:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). See the Schedule of Investments for a summary of the valuations as of November 30, 2024 for the Fund based upon the three levels describe above.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

All other securities and investments for which market values are not readily available, including restricted securities, and those securities for which it is inappropriate to determine prices in accordance with the aforementioned procedures, are valued at fair value as determined in good faith under procedures adopted by the Board, although the actual calculations may be done by others. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

See the Schedule of Investments for hierarchy classification and industry classifications.

Security Transactions – Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses from the sale or disposition of securities are calculated based on the specific identification basis.

Investment Income – Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable tax rules and regulations. Long-term capital gain distributions from investment companies, if any, are classified as realized gains for financial reporting. Discounts and premiums on fixed income securities are accreted or amortized using the effective interest method.

Tax Information, Dividends and Distributions to Shareholders and Uncertain Tax Positions – The Fund is treated as a separate entity for Federal income tax purposes. The Fund intends to qualify as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). To qualify and remain eligible for the special tax treatment accorded to RICs, the Fund must meet certain annual income and quarterly asset diversification requirements and must distribute annually at least 90% of the sum of (i) its investment company taxable income (which includes dividends, interest and net short-term capital gains) and (ii) certain net tax-exempt income, if any. If so qualified, the Fund will not be subject to Federal income tax.

ALEXIS PRACTICAL TACTICAL ETF
NOTES TO FINANCIAL STATEMENTS
November 30, 2024 (Unaudited) (Continued)

Distributions to shareholders are recorded on the ex-dividend date. The Fund generally pays out dividends from net investment income, if any, at least annually, and distributes its net capital gains, if any, to shareholders at least annually. The Fund may also pay a special distribution at the end of the calendar year to comply with Federal tax requirements. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed earnings and profit for tax purposes are reported as a tax return of capital.

Management evaluates the Fund’s tax positions to determine if the tax positions taken meet the minimum recognition threshold in connection with accounting for uncertainties in income tax positions taken or expected to be taken for the purposes of measuring and recognizing tax liabilities in the financial statements. Recognition of tax benefits of an uncertain tax position is required only when the position is “more likely than not” to be sustained assuming examination by taxing authorities. Interest and penalties related to income taxes would be recorded as income tax expense. The Fund’s Federal income tax returns are subject to examination by the Internal Revenue Service (the “IRS”) for a period of three fiscal years after they are filed. State and local tax returns may be subject to examination for an additional fiscal year depending on the jurisdiction. As of May 31, 2024, the Fund’s fiscal year end, the Fund had no material uncertain tax positions and did not have a liability for any unrecognized tax benefits. As of May 31, 2024, the Fund had no examination in progress and management is not aware of any tax positions for which it is reasonably possible that the amounts of unrecognized tax benefits will significantly change in the next twelve months.

The Fund recognized no interest or penalties related to uncertain tax benefits in the 2024 fiscal year. At May 31, 2024, the Fund’s fiscal year end, the tax periods for the prior three years are open to examination in the Fund’s major tax jurisdiction.

Indemnification – In the normal course of business, the Fund expects to enter into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Fund’s maximum exposure under these anticipated arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Adviser expects the risk of loss to be remote.

3. INVESTMENT ADVISORY AND OTHER AGREEMENTS

Investment Advisory Agreement – The Trust has entered into an Investment Advisory Agreement (the “Advisory Agreement”) with the Adviser. Under the Advisory Agreement, the Adviser provides a continuous investment program for the Fund’s assets in accordance with its investment objectives, policies and limitations, and oversees the day-to-day operations of the Fund subject to the supervision of the Board, including the Trustees who are not “interested persons” of the Trust as defined in the 1940 Act.

Pursuant to the Advisory Agreement between the Trust, on behalf of the Fund, and AIP, the Fund pays a unified management fee to the Adviser, which is calculated daily and paid monthly, at an annual rate of:

Rate

0.85% on first \$250,000,000 on daily net assets;
0.75% on the next \$250,000,000 on daily net assets; and
0.65% on daily net assets in excess of \$500,000,000

AIP has agreed to pay all expenses of the Fund except the fee paid to AIP under the Advisory Agreement, interest charges on any borrowings, dividends and other expenses on securities sold short, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution (12b-1) fees and expenses (if any).

At November 30, 2024, a majority of the outstanding shares of the Fund were held in separately managed accounts of the Adviser.

Distribution Agreement and 12b-1 Plan – Foreside Fund Services, LLC a wholly-owned subsidiary of Foreside Financial Group, LLC (dba ACA Group) (the “Distributor”) serves as the Fund’s distributor pursuant to a Distribution Services Agreement. The Distributor receives compensation for the statutory underwriting services it provides to the Fund. The Distributor enters into agreements with certain broker-dealers and others that will allow those parties to be “Authorized Participants” and to subscribe for and redeem shares of the Fund. The Distributor will not distribute shares in less than whole Creation Units and does not maintain a secondary market in shares.

The Board has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the 1940 Act (“Rule 12b-1 Plan”). In accordance with the Rule 12b-1 Plan, the Fund is authorized to pay an amount up to 0.25% of the Fund’s average daily net assets each year for certain distribution-related activities. As authorized by the Board, no Rule 12b-1 fees are currently paid by the Fund and there are no plans to impose these fees.

However, in the event Rule 12b-1 fees are charged in the future, they will be paid out of the Fund’s assets. The Adviser and its affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Fund.

Administrator, Custodian and Transfer Agent – U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (“Fund Services” or “Administrator”) serves as administrator, transfer agent and fund accountant of the Fund pursuant to a Fund Servicing Agreement. U.S. Bank N.A. (the “Custodian”), an affiliate of Fund Services, serves as the Fund’s custodian pursuant to a Custody Agreement. Under the terms of these agreements, the Adviser pays the Fund’s administrative, custody and transfer agency fees.

A Trustee and all officers of the Trust are affiliated with the Administrator and the Custodian.

4. CREATION AND REDEMPTION TRANSACTIONS

Shares of the Fund are listed and traded on the NYSE Arca, Inc. The Fund issues and redeems shares on a continuous basis at NAV only in large blocks of shares called “Creation Units.” Creation Units are to be issued and redeemed principally in kind for a basket of securities and a balancing cash amount. Shares generally will trade in the secondary market in amounts less than a Creation Unit at market prices that change throughout the day. Market prices for the shares may be different from their NAV. The NAV is determined as of the close of trading (generally, 4:00 p.m. Eastern Time) on each day the NYSE is open for trading. The NAV of the shares of the Fund will be equal to the Fund’s total assets minus the Fund’s total liabilities divided by the total number of shares outstanding. The NAV that is published will be rounded to the nearest cent; however, for purposes of determining the price of Creation Units, the NAV will be calculated to four decimal places.

Creation Unit Transaction Fee – Authorized Participants may be required to pay to the Custodian a fixed transaction fee (the “Creation Unit Transaction Fee”) in connection with the issuance or redemption of Creation Units. The standard Creation Unit Transaction Fee will be the same regardless of the number of Creation Units purchased by an investor on the applicable business day. The Creation Unit Transaction Fee charged by the Fund for each creation order is \$300.

An additional variable fee of up to a maximum of 2% of the value of the Creation Units subject to the transaction may be imposed for (1) creations effected outside the Clearing Process and (2) creations made in an all cash amount (to offset the Trust’s brokerage and other transaction costs associated with using cash to purchase the requisite Deposit Securities). Investors are responsible for the costs of transferring the securities constituting the Deposit Securities to the account of the Trust. The Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders. Variable fees, if any, received by the Fund are displayed in the Capital Share Transactions section on the Statement of Changes in Net Assets.

Only “Authorized Participants” may purchase or redeem shares directly from the Fund. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors will not qualify as Authorized Participants or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the shares directly from the Fund. Rather, most retail investors will purchase shares in the secondary market with the assistance of a broker and will

ALEXIS PRACTICAL TACTICAL ETF
NOTES TO FINANCIAL STATEMENTS
November 30, 2024 (Unaudited) (Continued)

be subject to customary brokerage commissions or fees. Securities received or delivered in connection with in-kind creates and redemptions are valued as of the close of business on the effective date of the creation or redemption.

A Creation Unit will generally not be issued until the transfer of good title of the deposit securities to the Fund and the payment of any cash amounts have been completed. To the extent contemplated by the applicable participant agreement, Creation Units of the Fund will be issued to such authorized participant notwithstanding the fact that the Fund's deposits have not been received in part or in whole, in reliance on the undertaking of the authorized participant to deliver the missing deposit securities as soon as possible. If the Fund or its agents do not receive all of the deposit securities, or the required cash amounts, by such time, then the order may be deemed rejected and the authorized participant shall be liable to the Fund for losses, if any.

5. FEDERAL INCOME TAX

The tax character of distributions paid was as follows:

	<u>Ordinary Income⁽¹⁾</u>	<u>Long-Term Capital Gain</u>
Period ended November 30, 2024	\$ —	\$ —
Year ended May 31, 2024	974,763	—

⁽¹⁾ Ordinary income includes short-term capital gains.

At May 31, 2024, the Fund's fiscal year end, the components of distributable earnings and cost of investments on a tax basis, including the adjustments for financial reporting purposes as of the most recently completed Federal income tax reporting year, were as follows:

Federal Tax Cost of Investments	<u>\$67,639,937</u>
Gross Tax Unrealized Appreciation	\$15,197,375
Gross Tax Unrealized Depreciation	<u>(154,938)</u>
Net Tax Unrealized Appreciation (Depreciation)	15,042,437
Undistributed Ordinary Income	225,095
Undistributed Long-Term Gain	187,355
Other Accumulated Gain (Loss)	<u>0</u>
Total Distributable Earnings	<u>\$15,454,887</u>

The difference between book-basis and tax-basis unrealized appreciation is attributable primarily to the tax deferral of losses on wash sales and the difference between book-basis and tax-basis on the securities received as a result of the in-kind contribution seeding the Fund.

Under current tax law, net capital losses realized after October 31 and net ordinary losses incurred after December 31 may be deferred and treated as occurring on the first day of the following fiscal year. The Fund's carryforward losses and post-October losses are determined only at the end of each fiscal year. The Fund did not defer any late year losses for the fiscal year ended May 31, 2024. At May 31, 2024, the Fund's fiscal year end, the Fund utilized \$811,668 of short-term capital losses and \$1,054,742 of long-term capital losses during the fiscal year ended May 31, 2024.

6. INVESTMENT TRANSACTIONS

During the fiscal period ended November 30, 2024, the Fund realized net capital gains resulting from in-kind redemptions, in which shareholders exchanged Fund shares for securities held by the Fund rather than for cash. Because such gains are not taxable to the Fund, and are not distributed to shareholders, they have been reclassified from total

distributable earnings (accumulated losses) to paid in-capital. The amount of realized gains and losses from in-kind redemptions included in realized gain/(loss) on investments in the Statement of Operations is as follows:

	<u>Realized Gains</u>	<u>Realized Losses</u>
Alexis Practical Tactical ETF	\$948,488	\$(10,355)

Purchases and sales of investments (excluding short-term investments), creations in-kind and redemptions in-kind for the fiscal period ended November 30, 2024, were as follows:

	<u>Purchases</u>	<u>Sales</u>	<u>Creations In-Kind</u>	<u>Redemptions In-Kind</u>
Alexis Practical Tactical ETF	\$18,415,213	\$14,836,195	\$10,385,836	\$7,260,972

7. PRINCIPAL RISKS

As with all ETFs, shareholders of the Fund are subject to the risk that their investment could lose money. The Fund is subject to the principal risks, any of which may adversely affect the Fund’s NAV, trading price, yield, total return and ability to meet its investment objective.

A complete description of principal risks is included in the prospectus under the heading “Principal Investment Risks”.

8. SUBSEQUENT EVENTS

Effective December 18, 2024, the Fund has transferred their primary listing to the NASDAQ Stock Market, LLC and is no longer listed on the NYSE Arca, Inc.

In preparing these financial statements management of the Fund has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. Management has determined that other than as disclosed above there are no subsequent events that would need to be recorded or disclosed in the Fund’s financial statements.

TAX INFORMATION

The Fund designated 93.70% of its ordinary income distribution for the year ended May 31, 2024, as qualified dividend income under the Jobs and Growth Tax Relief Reconciliation Act of 2003.

For the year ended May 31, 2024, 53.84% of dividends paid from net ordinary income qualified for the dividends received deduction available to corporate shareholders.
